

SUMMER FIELDS SCHOOL
The DLF  School

5.0 2026 CYFERNODE "WHAT IF?"

The Annual InterSchool Tech
Symposium organized by CyferNauts,
the digital society of Summer Fields
School, DIF Phase-1, Gurugram.

General Provisions

- Individual registrations are not permitted. Only registrations submitted through schools will be accepted.
- All participating students must remain active on the CyferNode Discord server throughout the duration of the event.
- Both WhatsApp and Discord will be used for communication. However, Discord will serve as the primary platform for micro-updates, announcements, and discussions.
- All required invitation links are available on the last page of this brochure, under the “Essentials” section.

Timeline

Prompt Release

25th Sep 2026

Submission Deadline

1st Oct 2026

Result Announcement

5th Oct 2026

Final Round and Award Ceremony

9th Oct 2026

theme

"WHAT IF?"

"WHAT IF?" is the central theme of the event, representing the curiosity that lies at the heart of every idea, invention, and breakthrough.

Every innovation begins with a question. What if we tried something different? What if we could build something better? What if the impossible was possible?

The theme encourages participants to question the ordinary, imagine beyond limitations, and turn possibilities into reality. It reflects the spirit of every event, where creativity, technology, and problem-solving come together to explore what could be.

From The Principal Desk

Dr. Urmimala Sudhakar

Dear Educators,

“Technology is best when it serves humanity.” — Matt Mullenweg

It is my privilege to extend a warm welcome to all of you at Cyfernode 5.0, hosted at Summer Fields School, A-Block, with the central theme “What If?” This theme represents the curiosity that lies at the heart of every idea, invention, and breakthrough, encouraging young minds to question, imagine, and explore possibilities beyond the ordinary. In today’s rapidly evolving digital world, technology continues to shape every aspect of our lives.

As educators, it is our responsibility to guide young minds to innovate thoughtfully, with creativity, compassion, and a strong sense of social responsibility.

CyferNode 5.0 provides our students with a platform to showcase their ingenuity, collaborate, and engage in meaningful problem-solving. Beyond technical skills, the event encourages them to think creatively and explore the possibilities that begin with a simple “What if?”

I am confident that CyferNode 5.0 will inspire curiosity, foster innovation, and encourage our students to imagine a better future.

With sincere regards,
Dr. Urmimala Sudhakar
Principal

Fontastic

Poster Designing

2 Participants | IX - XII

Create a poster based on the given theme or prompt. You can use any software you want. Focus on making your poster creative, clear, and visually appealing.

Basic Guidelines

- Any design software is allowed.
- The work must be your own.
- You may use external images, fonts, icons, etc., as long as they are legally usable.
- Submit the final poster along with the project/source file or project link.
- Make sure the project file/link is accessible to the organisers.
- Follow the given deadline and submission format.
- Late submissions may not be accepted.

Judging Criteria

Creativity & Originality | Visual Appeal | Relevance

Blendered

3D Modeling

2 Participants | IX - XII

02

Create a 3D model based on the given theme or prompt. You can use any 3D modeling software you want. Focus on making your model creative, detailed, and well-designed.

- Any 3D modeling software is allowed.
- The work must be your own.
- External textures, materials, and assets are allowed if they are legally usable.
- Submit the final render/model along with the project/source file or project link.
- Make sure the project file/link is accessible to the organisers.
- Follow the given deadline and submission format.
- Late submissions may not be accepted.

Unscripted

Movie Making

4 Participants | IX - XII

03

Create a short film based on the given theme or prompt. You can use any camera, editing software, or other tools you want. Focus on telling a good story and making your film engaging and creative.

Basic Guidelines

- Any camera, editing software, or tools are allowed.
- The film must be your own work.
- External music, footage, and assets must be legally usable.
- Submit the final film along with the project/source file or link.
- Follow the given time limit, deadline, and format.
- Late submissions may not be accepted.

Judging Criteria

Storytelling & Creativity | Production Quality | Relevance

Clue-Less

Cyber Investigation

2 Participants | IX - XII

Step into the world of cryptic puzzles and unravel a series of cleverly crafted clues. Decode wordplay, uncover hidden meanings, and connect the clues to reach the final conclusion.

Basic Guidelines

- The hunt will be conducted online on a portal.
- All required clues will be provided during the event.
- Use your own reasoning and cryptic-solving skills to progress.
- Do not access systems or resources outside the provided materials.
- Submit your final answers before the given deadline and in the specified format.

Judging Criteria

Investigation & Reasoning | Accuracy of Findings | Evidence Analysis

Runtime Terror

Coding Challenge

2 Participants | XI - XII

Solve Python problems online. Top teams qualify for the offline final round.

Basic Guidelines

- The preliminary round will be held online on 25th September, 2026.
- The final round will be held offline on 9th Oct, 2026.
- Participants must solve the given problems using Python.
- Teams will be selected for the final based on their performance in the preliminary round.
- All solutions must be the participants' own work.
- Follow the given time limit and submission instructions.
- Details regarding the final round will be shared with the selected teams.

Judging Criteria

Correctness | Problem-Solving | Speed & Efficiency

Buildout

SAAS Product Development

4 Participants | X - XII

Build a SaaS product around the given prompt and turn your idea into a working product. Teams will first submit their deliverables during the preliminary round, after which the selected teams will be invited to pitch and compete in the final round.

Basic Guidelines

- Submit all required deliverables in the preliminary round.
- Selected teams will be called for the final on 9th Oct, 2026.
- Any tools, frameworks, or software may be used.
- The product must be your own work.
- Follow the given submission format and deadline.
- Final-round details will be shared with selected teams.

Judging Criteria

Product & Innovation | Functionality | Presentation & Execution

Breadboard

Hardware Engineering
2 Participants | IX - XII

Design and develop a hardware-based solution to the given prompt. The preliminary round will be conducted online, where teams will submit their proposed solution and required deliverables. Selected teams will be invited to build and present their solution in the final round.

Basic Guidelines

- Preliminary round submission deadline is by 1st Oct, 2026
- Submit your solution based on the given prompt.
- Selected teams will advance to the offline final round.
- Any hardware, software, or tools may be used unless specified otherwise.
- The work must be original.
- Follow the given submission format and deadline.

Judging Criteria

Innovation & Design | Functionality | Execution

Wireframe

UI/UX

2 Participants | IX - XII

Design a digital product or interface based on the given theme or problem statement. Focus on creating an experience that is visually appealing, easy to use, and solves the given problem effectively. You are free to use any design tool you prefer.

Basic Guidelines

- Any UI/UX design software is allowed.
- The design must be your own work.
- Submit the final design along with the project/source file or shareable link.
- Make sure the project link/file is accessible to the organisers.
- Follow the given prompt, deadline, and submission format.
- Late submissions may not be accepted.

Entrepreneur.exe

Startup Pitching

2 Participants | XI - XII

Pitch your startup in a Shark Tank-style competition. Present your business idea, model, market, and vision through a pitch deck. All required deliverables will be provided in the prompt.

Basic Guidelines

- Teams must submit their pitch deck and required deliverables during the preliminary round.
- All required deliverables will be specified in the event prompt.
- The idea must be original and focused on a real business or market opportunity.
- Selected teams will be invited to the final round on 9th October.
- Teams must present their startup and answer questions from the judges during the final round.
- Follow the given submission format and deadline.
- Late submissions may not be accepted.

Prompt: [Entrepreneur.exe Prompt](#)

Bhavesh | 96670 17285

Bidisha | 98731 21996

Judging Criteria

Business Potential | Innovation & Market Fit | Pitch & Presentation

Unbranded

Rebranding

3 Participants | IX - XII

10

Rebrand an existing company and give it a fresh identity. Teams will rethink its logo, colours, typography, brand design, and go-to-market strategy, while keeping a connection to the original brand.

Basic Guidelines

- The company will be provided in the prompt.
- Teams have creative freedom over the rebrand.
- The new identity must retain some connection to the original.
- Submit all required deliverables mentioned in the prompt.
- Selected teams will be called for the final round on 9th October.
